ROCKBRIDGE ALUM SPRINGS,
VA.,
OPEN MAY 15th.

This favorite and celebrated summer resort is now in complete order for the reception of guests. Some important improvements have been added to the buildings since the establishment passed into the hands of the present proprietor, and it is his purpose to keep it in a style not surpassed any where in Virginia.

The remarkable medicinal and curative power of the water is well known to the medical profession and to the springs going public. As an
ALTERATIVE, A DIFFUSIVE STIMULANT, AND TONIC.

There is no known mineral water equal to it. In all anœmic conditions of the system, and broken down states of the constitution, loss of appetite, and general nervous prostration, its powers and virtue as a restorative may be safely pronounced to be without a known rival among the mineral waters of the world. They are ESPECIALLY INDICATED in the whole class as ailments peculiar to the female constitution.

The Proprietor will have provided for the Lawn and Ball Room a first-class Band of Music, and in general, all the sources of amusement and recreation, usually found at our best summer resorts, will be at the command of the guests at Rockbridge Alum.

The place is within 11 to 13 hours of Richmond, Washington, Baltimore and Lynchburg, by rail, ALL IN DAYLIGHT. Passengers leave the cars of the Chesapeake and Ohio Railroad at Goshen Depot, and new and elegant stage coaches, passing rapidly over a smooth and level road at only eight miles, set down the visitors at the Springs to tea.

The Rockbridge Water, put up in GLASS, containing ALL its medicinal qualities can be had at the well-known Drug houses of
JOHN H. McADEN, CHARLOTTE, N. C.
WILLIAMS & HAYWOOD, RALEIGH, N. C.
who will furnish on application, pamphlets containing the analysis of the water, and letters from eminent physicians, with a few certificates out of many of the wonderful cures made by these waters.

SPARKLING
CATAWBA SPRINGS
CATAWBA COUNTY, N. C.
This Celebrated Watering Place, since again called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.
Being situated in the North western part of this State, in a country remarkable for its beauty and healthfulness—these, together with the virtues of the waters, make it one of the most desirable watering places to be found.
THE MINERAL WATERS OF THESE SPRINGS
Are the White and Blue Sulphur and Chalybeate or Iron, and they possess all the direct qualities of the three waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and blood, eruptions of the skin, scrofula, weakness, debility, dyspepsia, rheumatism, &c., &c.
The Proprietor having spent a large amount in additional buildings and improvements, generally these Springs are now in a fine condition, possessing large and pleasant, and good cottages, containing from two to six rooms each, well arranged for either large or small families.
GOOD TEN PIN ALLEYS, BILLIARD TABLES
And other Amusements
FINE BATH HOUSES,
For Pool, Plunge or Shower Bath, Sulphur Bath, Hot or Cold.
A GOOD BAND OF MUSIC
Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.
Having secured the services of Mr. J. M. Cates of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.
The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Spring's depot, every morning (Sundays excepted) in connection with the North Carolina Railroad, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well shaded road to the Springs—a distance of six miles.
As an inducement for families and parties to put board down as the following low rates:

BOARD
For one single month, $50.00
For two or more months, $40.00
per month, or at that rate,
Per week, 16.00

CHINESE.

We know something of their nature—the Coolie is the most treacherous being on the face of the earth, and being wholly devoid of principle, would form a dangerous element in our midst. In the West Indies, where they are largely employed, they are found wholly improvident, and not jails enough can be found to punish them for the crime of theft.—*Weldon News.*

In this matter, we think Brother Stone is vastly mistaken. He has read the history of the followers of Confucius very differently from those who have had the most intercourse with them. There are two points which we wish to notice: 1st, "They are wholly improvident." 2nd, "They are treacherous, and not jails enough can be found to punish them for the crime of theft." Now this directly the reverse of the fact, and the entire experience of those who have employed them proves it. In 1861, the writer visited Barbadoes, in company with an English gentleman who was at the time an extensive planter on the beautiful island of St. Croix, and was, during a part of his stay, the guest of the Governor-General. In company with officials of various classes, we visited the sugar plantations and other points of interest in and around Trinadad, and saw Coolies working on the plantations, was waited on by them, visited their shops, and, as all their customs were so strange, asked a multitude of questions in regard to them. All agreed, in fact we saw the evidence of it with our own eyes, that they were the most saving, thrifty and provident people we ever met. The Chinese have no idea of luxury; they are abstemious, and their sole idea is to accumulate so as to return to China. They are strictly "sojourners."

We heard nothing of their treachery that they were faithful, industrious and devoted to the interest of their employers. They are paid on an average about $8.00 per month and a small quantity of rice, sugar and fish given them as rations. We were told that they could live and even save a portion of this scanty fare, which was less than half what was furnished to the thriftless negro.

We saw in the Consul's office several of these people, who had served out their five years' contract, and were then on the eve of returning to China with $300 money made. Does that look like improvidence?

The Barbadoes, it is well known, was once a slave island, and was for a short time impoverished by emancipation; but when we were there it had recuperated, and was the most densely populated of any country occupied by the white race in the world, and, we believe, the best cultivated. We scarcely saw a foot of ground that was not planted, either in cane or something else that contributed to the support of man. The fields were planted to the very edge of the road, and with the exception of a small garden around some Baronial establishment, there was no waste ground on the Island. Now, these are facts, and we challenge refutation.

It is true these people are idolaters, not heathen in any just sense of the word. A large number of the best society in Boston are infidels—if to deny the Divinity of the Saviour constitutes them such; and we believe that the white-hatted philosopher, Greeley, is a Unitarian too. We are not disposed to go into the religious belief of emigrants, but submit, is it not more dangerous to the orthodoxy of a community to import cultivated, intellectual, fascinating infidelity, than to bring into our midst these ignorant laborers, who will come to work and be taught the holy precepts of our Divine religion, and not to teach us.

Now Bro. Stone is in favor of immigration. We ask him, in a spirit entirely free from bitterness, if the stupid Chinese laborer can be as treacherous as the slick tongued, persecuting, puritanical, cowardly Cape Codder?

Sambo looms up even in Cuba. The report sent by telegraph that five thousand negroes made a "raid" upon Puerto Principe, and were repulsed and driven off by four hundred Spaniards, was rather damaging to Sambo's reputation for courage and constancy. Later reports, however, have changed the aspect of the affair. There were four *thousand* Spaniards engaged in repelling Sambo's attack. This proportion will do better. Five to four, the negroes could hardly be expected to whip the whites. To give them a fair chance, they should be allowed at least two or three of their own race to each white soldier. But even if he got worsted, Sambo "showed fight," and so is entitled to whatever credit that fact is calculated to give him.

HON. ISAAC TOUCEY.

The decease of Hon. Isaac Toucey, Secretary of War under President Buchanan, says the Charleston *Courier*, adds still another to the list of departed public men, whose services entitle them to the gratitude of their fellow-countrymen. Mr. Toucey was through life a lawyer in high standing, of remarkable mental acuteness, and rewarded by ample success for his devotion to his profession. No name stood higher in his native State, during his active professional career, than his own. At the Hartford bar with him were men like Hungerford, Ellsworth, Williams and Chapman, with whom his mind repeatedly measured its forces, and never without distinction. He will be long remembered by the people of his State as the counseller and advocate of thorough legal learning, great forensic power, and true elevation of character.

But it in public life he achieved a just reputation for great ability, integrity and consistency. He served with merited distinction and exemplary dignity as Governor of the State of Connecticut, in which office his services were of permanent value to the people who had clothed him with power. In the United States Senate he displayed, on a wider field, the same marked ability, undeviating patriotism, statesmanlike qualities, and high traits of character which had led to his selection for a position he signally honored. His principles were truly Democratic; he was National in every sense; and firm in his patriotism and devotion to the Union, he could afford to pass unnoticed the jeers and taunts of men whose instincts were not to be named with his for purity and uprightness. Out of the fortune he accumulated he some time ago devoted twenty thousand dollars to the creation of scholarships in Trinity College, thus testifying to his esteem of those aids in procuring an education whose need he personally felt when working his own way out of the obscurity of his position. His death will be sincerely deplored. Connecticut loses a distinguished citizen, the country a steadfast defender of its constitutional rights and privileges.

The Raleigh Senter-nel having asked the editor of the *Standard* whether he favored Senter or Stokes, for Governor of Tennessee, the *Standard* replies: "We are in favor of the election of Stokes." That editor is a good *scenter* after the strong side. He knows how to make a Senter-shot.

Star.

The celebrated Dr. Cumming, of London, is writing a letter to the Pope asking his Holiness if freedom of discussion will be allowed at the forthcoming Council. If the Doctor is permitted to attend and speak before assembled popedom, he will show, he says, that the unity of Christ's Church in its highest and sublimest sense, exists in English and Scottish Christendom. He would also show that Protestantism has unity, but not uniformity, and that Popery has uniformity, but no unity. I do not think the Doctor will be allowed the privilege which he seeks. I question if the Pope will take any notice of his letter.—*Christian Advocate.*

LOVE TRIUMPHANT.—Yesterday a gallant young man and a fair young lady started for a walk to church in Gardonsville, Va., but each feeling that the other was all in all to her or him, and fearing the opposition of stern parents to their marriage, they changed their minds in relation to the proposed attendance at church, and took the train from that point to this city. A license was procured, the Rev. Dr. Gibson called in, and in the parlor of the hotel the twain was made one flesh. The delighted pair left on the evening train for home, exulting in the fact that they had outflanked mamma and papa, and that said mamma and papa would not long remain obdurate. So mote it be.—*Washington Express, 2d.*

STATE NEWS.

RAILROAD MATTERS.—It is always a pleasure to us to record any news of brighter prospects for our railroad or cheer to the hearts of our people. For the past two weeks doubts and distrust have cast a gloom upon the faces of all in this section. We rejoice in being able to remove them. G. M. Roberts, the Secretary and Treasurer of the Western Division of our road has just returned from New York, with the cheering information that, immediately upon the reception of the news that our Supreme Court had decided the appropriations to new Railroads were unconstitutional, diminishing the State debt more than $4,000,000, the bonds issued to our road rose from 43½ to 53, with a strong upward tendency. Mr. R. also informs us that there is no doubt now about the rapid prosecution of the work on the road, and no apprehension need be entertained about money for that purpose.—*Asheville News.*

INCIDENTS.—There were two noteworthy incidents connected with the recent election of President and other officers of the Wilmington, Charlotte and Rutherford Railroad Company. One, the re-election of Messrs. B. S. Guion and V. A. McBee, two old, efficient and popular officers of the Company. The other, the support of Dr. Sloan for President by two of the six Directors elected by the stockholders. The former showed a spirit of liberality on the part of the State Directors; the latter a feeling of confidence in the integrity and capacity of Dr. Sloan.—*Wilmington [illegible]*

A YOUTHFUL SUICIDE—A BOY DROWNS HIMSELF.—A negro boy some eight years of age committed suicide at Halifax some ten days since by jumping into the Roanoke at that place. The boy had told his mother that he would drown himself if she persisted in giving him some medicine, but no attention was paid to the threat. The youthful suicide, however, accompanied by a little sister, repaired to the banks of the river, and stripping off his clothing, he bade his sister good-bye, when he deliberately leaped into the Roanoke and sank to rise no more. His body was recovered after several days and buried. This is doubtless the strangest case of suicide on record.—*[illegible] News.*

A PROBABLE FATAL AFFRAY—MAN SERIOUSLY STABS ANOTHER IN AN AFFRAY.—We learn with regret of an affray which occurred at the residence of Col. Ritter, [illegible] Gaston, on Friday night last, resulting in the severe and probably fatal wounding of one of the parties engaged therein. It seems that a number of young people had been spending the night in the gaities of the dance, and when about to break up at a late hour in the morning from some cause some words passed between Mr. Jesse Pittard, Jr., and R. M. King, Esq., of Littleton. The two, with their friends, repaired a short distance from the house to settle the dispute, and while talking the matter over, the lie passed from Mr. Pittard to Mr. King, whereupon the latter, before he could be prevented by the bystanders, and indeed before it was known that he had a weapon, it being in the night, drew a knife and inflicted several serious cuts upon the person of Mr. Pittard, one thrust being across the bowels, laying them bare, another thrust being in the region of the heart, and still another being somewhere in the back. The two were at this juncture separated, when it was discovered that Mr. Pittard had been severely cut. He was conveyed to the house, attention given him, and we understand his condition is by no means favorable as death may ensue, the opening across his bowels having caused a protrusion of a portion of the entrails.

Complaint was made before Magistrate Larkins of this place, against Mr. King, and a warrant for his arrest issued, but we have not heard of his being arrested. He has been acting as Deputy Sheriff in the upper end of the county. These are the facts in the case as far as we have heard them, and we of course can give no opinion as to who was in fault.

The wounded man is a son of our esteemed fellow-citizen, Mr. Jesse Pittard, Sr., who resides in the neighborhood of Pittard's store.

P. S.—Since writing the above, we have heard direct from Mr. Pittard. He was doing well on Monday night, and there is a strong hope of his recovery. He received two severe cuts, neither of them, however, penetrating the bowels, one of them ranging from the upper portion of the left breast across the stomach, cutting to the hollow, and inflicting a most ugly wound; the other striking higher up and nearer the shoulder-blade, making also a bad wound, but neither is considered necessarily dangerous. The lick upon the back was only slight.

The difficulty, it seems, commenced in jest, the parties having been good friends previously, and the whole affair is to be deeply regretted. Mr. King regrets it deeply himself, and avows his determination to submit to the demands of the law for the offense committed.—*Weldon News.*

William B. Astor is going to complete the Washington National Monument, which is a very clever way of building his own.

Hotel des Invalides.

As I have also visited the *Hotel des Invalides*, I shall conclude, with a brief account of this whole Institution. It was founded in 1676, by Louis XIV., for the benefit of old, wounded, or otherwise infirm soldiers. The buildings are spacious and commanding in appearance, surmounted by an immense gilded dome, which can be seen from almost any point in the city. Thirty years service or serious wounds, give the right of entrance to each and every soldier. It possesses ample accommodations for 5,000 men. At present the occupants number about 3,000. They are comfortably lodged, supplied with wholesome and substantial food, and furthermore, paid a small pension, from 30 francs a month for a colonel, to 2 francs for a private. I first visited the tomb of Napoleon. One enters what appears to be a large church. Beneath the immense dome mentioned, the light shines through glass of a faint blue color, and the effect thus produced upon the interior, which is principally of marble, is very impressive. Immediately under the dome, there is a heavy marble balustrade; looking over this into a circular space below, one sees the last resting place of France's great hero. In the center of this space is the sarcophagus of brownish granite, highly polished, an immense block of stone, at the head of which is always kept a bouquet of immortelles. In the pavement all around are inlaid the names of some of the battles in which Napoleon figured; such as the Pyramids, Austerlitz, Jena, Marengo, Moscow, etc., etc. Arranged in several stands are sixty colors, captured by Napoleon. At the base of each of the surrounding columns reclines a statue of Victory in a very mournful frame of mind. Behind these columns runs a gallery faced with bas-reliefs, descriptive of the establishment of Order, the Concordat, the Development of Commerce, the Administration, the Public Works, the Legion of Honor, ten in all. These, however, cannot be very satisfactorily seen as they are partially concealed from view by the columns of the gallery and the statues of Victory. The whole is simple, but magnificent. After gazing for some time into this crypt, and picturing to myself a few of the scenes in which the great Napoleon had played the principal role, I turned to inspect the rest of the building. Immediately opposite the entrance, at the extreme end, in an alcove or chapel, is a sort of altar, supporting a large crucifix. The chapel is lighted by [illegible] glass producing an extremely rich effect. Descending a flight of steps at the side of the altar, one sees the entrance to the crypt, a huge doorway, flanked by two giants in bronze, each of them holding in hands a cushion, upon which rests a crown and a scepter. Above the portal is the following inscription: "*Je desire que mes cendres reposent sur les bords de la Seine, au milieu de ce peuple Francais que j'ai tant aime.*" The four corners of the main building are used as chapels, in each of which there is one or more tombs of Napoleon's generals.—*Lutheran Observer.*

A NEW ILLUMINATOR.—The management of the Erie Railway is about to illuminate the whole of that road by a plan more novel than any ever before dreamed of, even by the wildest visionary. From this city to Buffalo and Dunkirk, it is designed to make the line one unbroken line of light by the application of the electric light to each locomotive, and stationary lights at the ferries, in the Bergen tunnel, and at all the dangerous curves along the route. The arrangements for manufacturing the electric lamps are already completed by Mr. F. C. Morse, who has the matter in charge. Mr. Morse claims several discoveries and improvements in connection with the electric light, among which may be mentioned a self-sustaining battery, a devise for making the carbon points, used to give the electric point, and an ingenious arrangement by which the electricity to run the lamps will be collected from the friction of the wheels as the train is in motion. Two lamps will be used for lighting Bergen tunnel, with one in the middle, as the tunnel is not straight, but curves.—Other lamps will then be stationed at each end of the Pavonia ferry, which will throw a broad belt of light across the North river every night, to guide the traveller safely to his home in the metropolis. These lights will, it is said, be so intense that on the darkest foggy night there will be no danger of collision on the water, any more than in the day time. Still more, it is proposed to fill Twenty-third street every night with a flood of white light from the North river to the Fifth Avenue Hotel, so that travellers at the heart of the metropolis may at all times be reminded of the broad and happy way.—*New York Tribune.*

"CIRCUS LIKE."—Rev. G. H. Patillo in the *Southern Christian Advocate*, says: "Not long since a little Presbyterian boy attended in the afternoon with his grandmother, who is a Catholic, the exhibitions of her church. At the tea-table, the artless little fellow delivered himself as follows: "Mamma, I loves grand-mother's church better than I do yours, because, at her church, they do so circus like."

Six convicts escaped from South Carolina State Penitentiary last week. Two escaped a few weeks before, and Governor Scott has pardoned sixteen. In all two dozen convicted felons have been let loose to prey upon the community. Who will say that Governor Scott does not deserve the gratitude of the Radical party?

A disgraceful struggle is in progress between the two Republican Collectors in Charleston. The late Collector, Mr. G. W. Clark, Mr. Clark in turn caused Dr. Mackey and other Custom House officials to be arrested for assault; and in the meantime, with the aid of thirty men, forcibly took possession of the Custom House.

Senator Sprague's aphorism that "nothing is more cowardly than a million dollars—unless it be two millions," was probably inspired, says the Boston Transcript, by the old conundrum, "What makes more noise than a pig under a gate? Two pigs."

A Richmond paper contains the following report of a police court case: "Shelton Cox, little negro, for trespassing on Mr. Peter August and entering a cellar for the purpose of committing a theft, was sent back to be [illegible]."

The Conditions of Health.

It is idle to expect health if the precautions necessary to secure it are neglected. The human organization is a delicate piece of mechanism, and requires as much intelligent care and watchfulness to keep it in order, as are requisite in the management of the most complicated combination of levers, wheels, pinions.

At this season of the year the body is peculiarly sensitive, because it is greatly weakened and relaxed by the continuous heat. The skin, in summer, with its millions of pores wide open, is a very different sort of legument from the compact fibrous covering which it becomes under the action of the winter's cold. The muscles, too, are comparatively flaccid, the nerves tremulous, the blood poor, and the whole frame less capable of enduring fatigue and resisting disease, than in cool weather These indications of a depressed condition of the vital forces are so many unmistakable hints that nature needs reinforcing.

Ordinary stimulants will not effect this object. They inflame and excite, but do not strengthen. The only preparation which can be depended upon to impart staminal vigor to the system, and enable it to endure the heated term without giving way under the pressure, is HOSTETTER'S STOMACH BITTERS, a tonic and corrective so pure, so harmless, so utterly free from the drawbacks which render many of the powerful astringents employed in medical practice more dangerous than the ailments they are employed to cure, that it may be administered without fear to the feeblest female invalid, or the most delicate child. The cathartic and alterative vegetable ingredients, which are combined with those of a tonic nature in its composition, keep the bowels moderately free and perfectly regular, while the work of invigoration is going on. The finest blood depurents which the herbal kingdom affords are also among its components, so that it recruits, purifies and regulates the system simultaneously.

ASIATIC CHOLERA IN CHINA

Tungchow, China, Aug. 23 1866.

Messrs. Perry Davis & Sons,

Dear Sirs—During a long residence in China, I have used your invaluable Pain Killer, both in my own family and among the Chinese, and have found it a most excellent medicine. In the summer of '62 and '63, while residing in Shanghai, I found it an almost certain cure for Cholera, if used in time. Indeed, using it in a great many instances, I do not remember failing in a single case. For three years I have been residing in this place, more than fifty miles from a physician, and have been obliged often to fall upon my own resources in cases of sickness. The Chinese came to us in great numbers for medicine and advice.—Though without medical knowledge ourselves, the few simple remedies we can command are so much in advance even in their physicians, that we have almost daily applications. We allow them to come, because it brings us in contact with them, and opens a door to usefulness. In diarrhœa, colic vomiting, cholera, coughs, &c, your Pain Killer has been my chief medicine.

Yours very truly,

T. P. CRAWFORD.

Hornets, Attention.
Notice to the Public.

YESTERDAY, about 3 o'clock, quite an excitement occurred at the polls, which came near resulting in something serious. At this time there must have been nearly 800 negroes in the Court-house yard and in the street fronting it. It seems that a negro named Cyrus Walker placed himself on the bench along side of where the voters had to stand while depositing their ballots, and by his insolent and over-bearing manner became quite offensive. A gentlemen spoke to him, when he replied rudely and jumping down into the crowd endeavored to incite the negroes to a riot. At this moment the crowd closed in, and the confusion was so great that no one could tell exactly what did occur. However, no blow fortunately was struck. Immediately thereafter a negro was seen in the street with an axe, and when ordered by Policeman Orr to put it down refused, at the same time raising it; whereupon Mr. Orr knocked him down with his billy. Several negroes rushed up, when Mr. Blackwelder, Chief of Police, promptly arrested the ringleader. The whites, *so far as we can learn*, rallied to support the Police, and thus a serious and bloody riot was prevented. The Police did their duty fearlessly, and deserve the thanks of all good citizens. We will only remark that it seems to be the opinion of all without regard to party that the negroes were the aggressors, and if a riot had been the result, on them alone should the responsibility have rested.

WE RECEIVED yesterday a beautiful note with the stanzas that occupy our Poet's Corner. The young lady says she is a constant reader of the TIMES, but refuses to let us know her name, "suffice it to say, you have known me all my life, but will never find me out." Does any lady, particularly one of sweet sixteen, with shining ringlets, sparkling eyes, and a countenance expressive of innocence itself, know how to keep a secret? Yes we will find you out, but will keep the discovery all to ourself. Your stanzas are quite pretty, but very hastily written, without due attion to the metre; but as modest and sweet as a girl of sixteen ought to be. We will be glad to hear from you often; but, pardon us, your letter is admirable, clearly showing that with practice you might excel as a prose writer. Suppose you try a letter next time. We know you will succeed. We do not mean by this to discourage you from writing poetry "occasionally."

☞ See notice of property to rent This is a very desirable place, and to any one who would like to keep a few cows or raise vegetables for market offers great advantages. There are six acres of land now in a high state of cultivation; a good orchard, with an abundance of excellent apples; a fruitful garden and a well of pure and cool water in the yard. The house is not attractive *outside*, but the internal arrangements are convenient and comfortable. It contains five rooms and out-buildings for a good sized family. The property is just opposite the Female College and within 15 minutes walk of the public squire. It will be rented with the growing crop, and two cows either sold or hired with it. Possession given to suit the renter.

POETRY.

For the Times.

In the soft and quiet twilight hour,
Strange thoughts my bosom fill,
Taking hold with mighty power
They guide me as they will.
Thoughts bring to view one far away,
I hope to call mine own one day.

Methinks this hour should ever be
To souls a holy time,
From sin and folly wholly free,
In this solemn even-time,
We should think of a purer clime than this,
In which we hope for eternal bliss.

Now twilight deepens into night;
Tho' day is in its death,
The morn will burst with brighter light,
Renewed in Strength and breath.
May we not sink into the night
But rise to realms forever bright.

MADRID, Aug. 3.—The Captain General of Madrid has addressed a letter to Regent Serrano and Gen. Prim, in which he said: "I took part in the revolution hoping to see morality, law and justice succeed to former abuses. It is now ten months since the revolution was accomplished, and my hopes have been deceived. Greater abuses, widespread immorality and deplorable anarchy prevail, disorders to which it is obsiutely necessary to put an end. The Constitution having proclaimed a monarchy, the immediate choice of a King is indispensable. If the Government does not shortly consider the question I shall abandon all hopes as to the consolidation of the revolution, and retire to private life." This letter was read in the Council of Ministers, and created a profound impression.

A GREAT AND GOOD MEDICINE
has induced Dr. Lawrence to enlarge his Laboratory and facilities for manufacturing, so as to be enabled to supply the extraordinary demand for it.
THE LARGE NUMBER OF TESTIMONIALS
which are constantly being received from Physicians and persons who have been cured by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.
AS A BLOOD PURIFIER IT HAS NO EQUALS
BEING POSITIVELY THE
MOST POWERFUL VEGETABLE ALTERATIVE
YET DISCOVERED

DISEASES OF THE BLOOD.

"The Life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true—The people talk of bad blood, as the cause of many diseases, and like many popular opinions this of bad blood is founded in truth. To say nothing of those humours that are hereditary, we can easily see how the blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.
The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human families are effected with scrofula in some form.
Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the blood poison at once, before it settles itself upon some vital point.
When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO! KOSKOO!
AS A
LIVER INVIGORATOR,
STANDS UNRIVALLED.
BEING THE ONLY KNOWN MEDICINE
that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, WITHOUT DEBILITATING the system. While it acts *freely* upon the Liver *instead of copious purging*, it *gradually changes* the discharges *to a perfect by natural state.*

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!
Is a remedy of WONDERFUL EFFICACY in the CURE of diseases of the KIDNEYS and BLADDER. In THESE AFFECTIONS IT IS AS NEAR A SPECIFIC *as any remedy can be.* It does its work *kindly, silently, and* SURELY. The RELIEF which it affords is both *certain* and *perceptible.*

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the *importance* of their *healthy action.*
Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the blood those effete matters, which if permitted to remain would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.
When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the fountain of life Pure.

KOSKOO! KOSKOO!
Meets with GREAT SUCCESS (as hundreds of certificates will show), in the CURE of
DISEASES OF THE NERVOUS SYSTEM.

Almost nine tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, (mental and physical), are causing diseases of the nervous system to increase at a fearful ratio.
The symptoms to which diseases of the nervous system give rise, may be stated as follows; A dull heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache, Dizziness, Noises or Ringing in the head; Confusion of Ideas; Temporary loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured—but recollect that God, in His Providence, has got afflicted his children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.
Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.

EXCELSIOR!—I have recently bought at great cost two of

THE BEST CAMERAS IN THE WORLD.

The maker of one, J. H. Dalmeyers, of London, received a gold and silver medal at the Paris Exposition. The other is a Paralactic Solar Camera, made by the celebrated optician, Herman Roettgers, of Germany. The best judges pronounce this the best instrument in the world. With the

BEST INSTRUMENTS,

The best of light and the best materials, I guarantee Pictures to surpass any thing in the State, and to

EQUAL ANY IN THE WORLD,

Either from old ambrotypes, Daguerreotypes, or from life. I am prepared to make any size picture as good, if not better than the original from fingering size up to full life size.

In making this announcement I would return my grateful thanks for the very liberal patronage bestowed upon me in the past, and pledge my best efforts in producing GOOD PICTURES in the future. The best judges are most pleased, and speak most flatteringly, but the pictures will speak well for themselves. Come and see.

Those owing me for Pictures will confer a great favor by paying their bills at once, and save annoyance, if not cost.

LARGE DIVIDEND OF INSURANCE.

The Piedmont Life Insurance Company, of Virginia, has

DECLARED A DIVIDEND OF FORTY PER CENT.

on its Life Policies, which have paid two annual premiums, and the same is available on such policies at next renewal to absorb loans, or reduce cash payments.

The dividend could have safely been larger, but with the

PRUDENCE AND CAUTION

which has ever guided this company, it has deemed it proper to hold a surplus beyond the reserve fund.

The company is now only in the *eighteenth* month of its active operations yet

HAS ISSUED 3,000 POLICIES

HOT-AIR FURNACES, &c.

S. B. SEXTON'S CELEBRATED

PATENT BALTIMORE PARLOR HEATERS AND GAS BURNERS,

for Anthracite or Bituminous coal, have been in successful operation for the last ten years, and have proved to be the best Fire-place Heaters manufactured and put in operation. They are getting to be generally used, often in the place of furnaces, for heating the lower and upper rooms in dwellings and offices. Two or three Stoves heating the largest dwellings, and besides, are quite ORNAMENTAL and ILLUMINATING, having all the beauty and cheerfulness of an open grate fire, but are more ECONOMICAL, CLEANER, and RADIATING A LARGER AMOUNT OF HEAT. We can refer to thousands of families who have them in use.

We manufacture our own COOKING STOVES, and we guarantee them to be equal to any sold for *baking* and *cooking*. We have Stoves to take in *long wood* and with *large ovens*, and are *superior Stoves* for *baking*. We are getting out some new patterns of Cooking Stoves, that will burn *Bituminous coal, hard coal, or wood*. They will have a beautiful finish, and will stand among the No. 1 Cook Stoves. Our Cooking Stoves are Baltimore made, and we guarantee the plates. Our Cooking Ranges are pronounced the best and cheapest in the market. Baking of all kinds can be done in our Ranges as quickly and equally as well as in a Brick oven. We will manufacture S. B. SEXTON'S new patent Hot-Air Furnaces, warranted to burn from 30 to 70 hours with once filling.

Thankful to our friends and the public for their past favors, we solicit a continuance of their patronage.
